Insect Control Update: On The Table

(From the April 2007 article "Insect Control Update: In the last of a four-part series on crop protection, we update new products and label changes for insect control.")

The following insect control materials were on the IR-4 program's August 2006 New Products/Transitional Solutions list. For more information, go to www.ir4.rutgers.edu and look under "Pest Management Technology." You can also find information on pending registrations by going to EPA's Office of Pesticide Programs' Workplan page, www.epa.gov/opprd001/workplan.

Trade Name	Active Ingredient	Company	Pending Crops	Pest Targeted
